

SECTION 1: PRODUCT AND COMPANY INFORMATION

Product Name: ColletCare^{KN}+P+

Part number: ML00-1100-XXX

Product Use Description: Penetrant, solvent

Company: Think & Tinker, Ltd.
615 County Line Rd.
Unit H
Palmer Lake, CO 80133
USA

Website: www.precisebits.com

Email: support@precisebits.com

Telephone: 719-488-9640

Emergency telephone: 719-358-1988

Section 2: Hazard Identification

Hazard Statements:

H303 May be harmful if swallowed.
H316 Causes mild skin irritation:
H320 Causes eye irritation.

Pictograms:

Signal Word: Danger

Precautionary Statements:

P261: Avoid breathing mist or vapor: Category 3 - Specific target organ toxicity – (single exposure) respiratory tract irritation.

P264: Specific target organ toxicity - Category 1 (repeated exposure) Target Organs - Liver, Kidney, Blood.

P264: Wash thoroughly after handling: Category 2 - Skin corrosion / irritation, wear protective gloves.

P271: Use only outdoors in a well-ventilated area: Category 3 - Specific target organ toxicity, single exposure; respiratory tract irritation.

P273: Avoid release to the environment: Category 2 - Hazardous to the aquatic environment, chronic toxicity

Supplemental Information: none available

Section 3: Composition / Information on Ingredients

Mixtures:

Common Names and Synonyms	CAS Number	%
Soy methyl ester	67784-80-9	96.8-99
Proprietary, non-hazardous, non-regulated ethoxylated alcohol surfactant	Trade secret	0.08 – 2
2,6-Di-tert-butyl-p-cresol – BHT	128-37-0	<1
Ethene, 1,1,2,2-tetrafluoro-, homopolymer – PTFE	9002-84-0	<1
Hexagonal Boron Nitride - hBN	10043-11-5	<1

Section 4: First Aid Measures

Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin Contact:	Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs, get medical advice or attention. Wash contaminated clothing before reuse.
Eye Contact:	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention if irritation occurs or persists.
Ingestion:	Rinse mouth. Call a doctor/physician if you feel unwell. Do NOT induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into lungs. Never give anything by mouth to an unconscious person. Consult a physician.
Notes to Physician:	Symptoms: • May cause drowsiness and dizziness. • Headache • Nausea, vomiting (see above) • Aspiration may cause pulmonary edema and pneumonitis. • Skin irritation, redness, pain Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

Section 5: Firefighting Measures

Flash Point:	CLOSED CUP: 71.111°C (160°F), OPEN CUP: 87.78°C (190°F)
Suitable Extinguishing Media:	CO2, Dry Chemical for small fires, foam for large fires, water spray
Unsuitable Extinguishing Media:	DO NOT use water jet as an extinguisher as this will spread the fire.
Special Protective Equipment for Firefighters:	Wear protective clothing including eye protection and gloves. Wear self-contained breathing apparatus for firefighting if necessary
Special Hazards During Firefighting:	None specified.
Firefighting instructions:	Move containers from fire area if this can be done without risk. Use standard firefighting procedures and consider the hazards of other involved materials.
Hazardous Decomposition:	Carbon monoxide (CO); carbon dioxide; gases hazardous to health may be formed
Fire Hazards in Presence of	Flammable in presence of open flames and sparks, of heat, of oxidizing materials.

Revision Date: March 8, 2026

Various Substances:	
Special Remarks on Fire Hazards	No unusual fire or explosion hazards noted.

Section 6: Accidental Release Measures

Personal Precautions:	Keep unnecessary personnel away. Keep people away from and upwind of the spill / leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of this SDS.
Environmental Precautions:	Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained
Methods for Cleanup:	Contain spills and hold for disposal. Never return spills to original container for re-use. For waste disposal, see section 14 of SDS.

Section 7: Handling and Storage

Handling:	Provide adequate ventilation. Keep container closed. Avoid breathing vapor or mist. Avoid contact with eyes, skin and clothing Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.
Storage:	Store locked up. Keep container in a cool, well-ventilated area. Keep container tightly closed and sealed until ready for use. Avoid all possible sources of ignition (spark or flame). Emptied containers retain vapor and product residue. Observe all recommended safety precautions until container is cleaned, reconditioned or destroyed. The reuse of this material's container for non-industrial purposes is prohibited, and any reuse must be in consideration of the data provided in this material safety data sheet. Store away from incompatible materials (see Section 10 of SDS)

Section 8: Exposure Controls / Personal Protection	
Occupational exposure limits:	No exposure limits noted for ingredients
Biological limit values:	No biological exposure limits noted for ingredients
Appropriate engineering controls:	Good general ventilation (typically 10 air changes per hour). Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels to an acceptable level. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.
Individual protection measures:	Eye / face protection: Chemical respirator with organic vapor cartridge and full face-piece. Skin protection: Wear appropriate chemical resistant gloves and clothing. Respiratory protection: Chemical respirator with organic vapor cartridge and full face-piece Thermal hazards: Wear appropriate thermal protective gloves and clothing when necessary.
General hygiene considerations:	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Section 9: Physical and Chemical Properties			
Appearance:	Physical state – liquid	Explosive limit – upper:	Not available
	Form – liquid	Vapor pressure:	<2mm Hg @ 20°C estimated
	Color – Yellow opaque	Vapor density:	Estimated heavier than air
Odor:	Mild odor	Relative density:	7.3 lbs/gal (@25°C)
Odor threshold:	Not available	Solubility:	Emulsifiable
pH:	6.65	Auto ignition temp.:	445°C (833°F)
Melting point / freezing point:	<32°F	Decomposition temp.:	Not available
Initial boiling point:	Over 300°F (149°C) estimated	Viscosity:	Not available
		Density:	7.34 lbs/gal (0.9 kg/l)
Flash point:	>200°F (>93.3°C) Tag closed cup	Explosive properties:	Not explosive
		Flammability class:	Combustible IIIB estimated
Evaporation rate:	<1 (n-butyl acetate=1)	Moisture:	< 0.2%
Flammability (solid, gas):	Not applicable	Oxidizing properties:	Not oxidizing
Flammability limit – lower:	Not available	Percent volatile:	0.27% estimated
Flammability limit – upper:	Not available	Specific gravity:	0.88
Explosive limit – lower:	Not available	VOC (weight %)	2.3%, 0.06lb/g, 20 g/l

Section 10: Stability and Reactivity	
Reactivity:	Stable and non-reactive under conditions of normal use, storage and transport.
Chemical stability:	Stable under normal conditions.
Hazardous reactions:	No dangerous reaction known under conditions of normal use.
Conditions to avoid:	Avoid temperatures exceeding flash point or contact with incompatible materials.
Incompatible materials:	Strong oxidizing agents.
Hazardous decomposition products:	Produces carbon monoxide and carbon dioxide on combustion

Section 11: Toxicological Information				
Inhalation:	May cause mild irritation of the throat and airways.			
Skin contact:	Causes mild skin irritation			
Eye contact:	Direct contact with eyes may cause temporary irritation			
Ingestion:	Droplets of the product aspirated into lungs through ingestion or vomiting may cause a serious chemical pneumonia.			
Symptoms related to exposure:	May cause mild skin and eye irritation.			
Acute Toxicity	Component	LD50 Oral	LD50 Dermal	LD50 Inhalation
	2,6-Di-tert-butyl-p-cresol	>2000 mg/kg (Rat)	>2000 mg/kg (Rat)	NOT LISTED
	h-BN	>2000 mg/kg (Rat)	>2000 mg/kg (Rat)	rat - 4 h - > 5.19 mg/l
Skin corrosion / irritation:	Causes skin irritation			
Serious eye damage / irritation:	Direct contact with eye may cause temporary irritation.			
Respiratory sensitization:	Not a respiratory sensitizer			
Skin sensitization:	This product is not expected to cause skin sensitization.			
Germ cell mutagenicity:	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic			
Carcinogenicity:	Carcinogenicity - rat - Implant - Tumorigenic: Equivocal tumorigenic agent by RTECS criteria. - Tumorigenic: Tumors at site or application. Carcinogenicity - mouse - Implant - Tumorigenic: Equivocal tumorigenic agent by RTECS criteria. - Tumorigenic: Tumors at site or application. IARC: 3 - Group 3: Not classifiable as to its carcinogenicity to humans (Ethene, 1,1,2,2-tetrafluoro-, homopolymer) ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.			
OSHA specifically regulate substances (29 CFR 1910.1001-1050)	Not listed			
Reproductive toxicity:	This product is not expected to cause reproductive or developmental effects.			
Specific target organ toxicity:	Single exposure – see Section 2 Repeated exposure – see Section 2			
Aspiration hazard:	May cause irritation if swallowed and enters airways:			
Chronic effects:	Prolonged exposure may be harmful:			

Section 12: Ecological Information				
Ecotoxicity:				
Component	Test			
h-BN	Toxicity to fish static test LC50 - Oncorhynchus mykiss (rainbow trout) - > 100 mg/l - 96 h NOEC - Oncorhynchus mykiss (rainbow trout) - > 100 mg/l			
Component	Freshwater Algae	Freshwater Fish	Microtox	Water Flea
2,6-Di-tert-butyl-p-cresol	EC50 = 0.758 mg/L 96h EC50 = 6 mg/L 72 h	LC50 = 0.199 mg/L 96h	EC50 = 7.82 mg/L 5 min EC50 = 8.57 mg/L 15 min EC50 = 8.98 mg/L 30 min	EC50 >0.31 mg/L 48h
Persistence and degradability:	No data available on the degradability of this product			
Bioaccumulative potential:	No data available			
Mobility in soil:	The product is immiscible with water and will spread on the water surface.			
Other adverse effects:	No other adverse environmental effects are expected from this product or its components			

Section 13: Disposal Considerations

Disposal instructions:	Collect and reclaim or dispose in sealed containers at licensed waste disposal sites. Do not allow this material to drain into sewers / water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents / container in accordance with local / regional / national / international regulations.
Local disposal regulations:	Dispose in accordance with all applicable regulations.
Hazardous waste code:	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products:	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see Disposal instructions above).

Section 14: Transport Information

DOT:	Not regulated as dangerous goods
IATA:	Not regulated as dangerous goods
IMDG:	Not regulated as dangerous goods
Bulk transport (Annex II, MARPOL 73/78 and IBC code):	Not established
General information:	Not regulated as dangerous goods

Section 15: Regulatory Information												
US Federal regulations						Not regulated						
TSCA Sect. 12(b) Export Notification (40 CFR 707, Subpt. D)						Not listed						
CERCLA Hazardous Substances List (40 CFR 302.4)						Not listed						
SARA 304 Emergency release notification						Not regulated						
Osha Specifically Regulated Substances (29 CFR 1910.1001-1050)						Not listed						
Superfund Amendments and Reauthorization Act of 1986 (SARA) Hazard categories						Immediate hazard – Yes Delayed hazard – No Fire hazard – No Pressure hazard – No Reactivity hazard – No						
SARA 302 Extremely hazardous substance						Not listed						
SARA 311/312 Hazardous Chemical:						No						
SARA 313 (TRI reporting):						Not regulated						
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List:						Not regulated						
Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130):						Not regulated						
Safe Drinking Water Act (SDWA):						Not regulated						
U.S. California Controlled Substances, CA Dept. Justice (CHSC Section 11100):						Not listed						
U.S. Massachusetts RTK – Substance List:						Not listed						
U.S. New Jersey Worker and Community RTK Act:						Not listed						
U.S. Pennsylvania Worker and Community RTK Law:						Not listed						
U.S. Rhode Island RTK:						Not listed
